

Glenugie to Devil's Pulpit

TAKING TESTING TO THE LIMIT

TRIED AND TESTED...

CPTS Pty Ltd has secured a proud heritage and iconic reputation within the Australian geotechnical engineering industry. The company headed by Yvo Keulemans, who has 25 years experience in the field has an unblemished record after 15 years' successful operation. It has cemented its reputation as an industry leader through exceptional performance and unparalleled ingenuity. The test results achieved by CPTS are consistently of the highest quality and are delivered with unmatched time efficiency and cost effectiveness.

Since 2006 CPTS has also fostered the rise of its sister company ATV Hire. CPTS incorporates ATV Hire's fleet of all terrain and amphibious vehicles to safely traverse sites with challenging terrain and very limited access to undertake site testing. The variety of CPT rigs available include: Truck mounted, low ground pressure tracked, heavy tracked, mini tracked, fully amphibious, portable, and Australia's only CPT rig capable of traversing liquid tailings, as well as a hoverbarge and a fleet of Argos. View these at www.cpts.com.au/tests/test-vehicles

RIDING HIGH Our fleet of argos are for hire. Aurecon, Coffey and Roads and Maritime Services (RMS) have all hired our argos to transport personnel and equipment for road projects.
